

■ IRBCOIN MANIFESTO

No Promises. Just Vibes.

There comes a point when the charts don't matter anymore. When people stop asking for a roadmap, and start asking for meaning. That's when IRBCoin was born.

We didn't come here to build the next Bitcoin. We came here to remind crypto why it was fun in the first place.

IRBCoin isn't a product. It's not a whitepaper. It's a pulse — a golden symbol of irony, community and pure chaos.

We don't chase trends. We are the trend. Every meme, every post, every "It's Really Bullish" is another spark in a storm that no chart can measure.

IRBCoin stands for:

I – Imagination

R – Rebellion

B – Belief

Because that's all you need to start something unstoppable.

No founders hiding behind locked tokens. No VC promises. Just a community with a logo that shines brighter than logic.

We will laugh. We will meme. We will ride every market wave like it owes us a drink.

And when people ask what IRBCoin is... We'll smile and say:

It's Really Bullish. ■
